

# KIDSNET Update

April 2010  
Volume 6, Issue 4

KIDSNET facilitates the collection and appropriate sharing of health data with healthcare providers, parents, MCH programs and other child service providers for the provision of timely and appropriate preventive health and follow up.

### **KIDSNET Vaccine Coding Alert:**

There are several recent changes in the vaccines that are being supplied or will be supplied in the near future. It is critical that the correct vaccine codes be submitted to KIDSNET since they are tied to schedules specific to the code.

**Reporting on KIDSNET Immunization Data Sheets:** New Data Sheets will be delivered to offices over the next several months. If a vaccine you are using is not on the Data Sheet write in the CPT code and name of the vaccine in the far right hand column.

**Electronic reporting to KIDSNET:** Make sure you have added all new codes and properly linked them to your menus. If necessary, contact your EMR vendor. Make sure that staff are aware of and correctly differentiate between vaccines that were previously used and those currently being used. When recording histories you will still need access to codes for vaccines that we are no longer using.

**Prenvar:** Prenvar 13 is now available for Providers to order. It replaces Prenvar 7. During this transition to Prenvar 13, make sure that you accurately record which of the two vaccines is used. Please note the manufacturer code for Prenvar is now PFR (Pfizer, Inc.). WAL (Wyeth-Ayerst) is no longer used, since Pfizer acquired the company.

	Status	CPT	CVX	MX
<b>Prenvar 7</b>	Discontinue use when Prenvar 13 is available in Practice	90669	100	WAL
<b>Prenvar 13</b>	Available to order. Replaces Prenvar 7	90670	133	PFR

**Rotavirus:** Use of Rotarix vaccine is temporarily suspended. Providers may order Rotateq vaccine to use during this suspension. Each vaccine has different codes and schedules, making accurate reporting essential. See Immunization Alerts for additional details.

	Status	CPT	CVX	MX	Doses
<b>Rotarix</b>	All use is temporarily suspended.	90681	119	SKB	2 dose schedule
<b>Rotateq</b>	Available to order.	90680	116	MSD	3 dose schedule

**HIB:** Rhode Island has had a variety of Hib vaccines available for use in recent years. Currently ACTHIB and Hiberix are being supplied. Beginning April 2010, Rhode Island will return to use of PEDVAX HIB. Correct coding is critical since the vaccines have different schedules.

	Status	CPT	CVX	MX	Doses
<b>ACTHIB (Hib PRP-T)</b>	Currently being supplied	90648	48	PMC	4 dose schedule
<b>Hiberix</b>	Currently being supplied	90648	48	SKB	Used as booster dose only
<b>PEDVAXHIB</b>	May be supplied in future	90647	49	MSD	3 dose schedule

## KIDSNET Reports

### **Immunization Report**

In March 2010, the following **38** pediatric practices ran the missing immunization report:

*Allen Berry Health Center-PCHC, Anchor Pediatrics, Arcand Family Medicine, Inc., Associates in Primary Care Medicine, Bayside Family Healthcare, Inc., Block Island Medical Center, Bristol County Pediatrics, Capitol Hill Health Center-PCHC, Chad Brown Health Center, Chad P. Nevola, MD, Charles J. Deangelis, MD, FAAP, Ltd., Children First Pediatrics, Corsi & Fraioli, East Bay Family Health Care, East Greenwich Family Practice, East Greenwich Pediatrics, Everett Wilcox Center, Family Health Services-Coventry, Family Health Services-Cranston, Family Medicine Specialists, Inc., Fatima Health Center - St. Joseph Hospital, Hillside Avenue Family and Community Medicine, Kingstown Pediatrics, Michael J. Hayden, DO, Narragansett Indian Health Center, Northern RI Pediatrics, Pediatric Associates, Inc., Richard K. Ohnmacht, MD, Ltd., Riverside Pediatrics, South County Pediatric Group, St. Joseph Pediatric Clinic, Sunshine Pediatrics, Thundermist Health Center of South County, Tri Town Health Center, Valley Primary Care, Inc., Wakefield Pediatrics, LLC., Warren Family Practice Associates and Westerly Pediatrics*

### **Lead Screening Report**

In March 2010, the following **20** pediatric practices ran the report for children never screened for lead poisoning:

*Arcand Family Medicine, Inc., Associates in Primary Care Medicine, Bayside Family Healthcare, Inc., Capitol Hill Health Center-PCHC, Chad Brown Health Center, Chad P. Nevola, MD, Douglas S. Foreman, DO, East Bay Pediatrics and Adolescent Medicine, East Greenwich Family Practice, Family Medicine Specialists, Inc., Kent County Pediatrics, Kingstown Pediatrics, P.R.I.M.A., Inc., Pediatric Associates, Inc., South County Pediatric Group, Stuart V. Demirs, MD, Tri Town Health Center, Wakefield Pediatrics, LLC., Warren Family Practice Associates and Wood River Health Services*

### **CDC Reports Mumps Outbreak in Northeast:**

CDC, in collaboration with public health officials in numerous states in the Northeast, continues to investigate a multi-state mumps outbreak. Most of the current cases were among Hasidic (Jewish) populations in New York and New Jersey. (This outbreak is also occurring among members of the same population in Israel.) Rhode Island has not documented a case associated with this outbreak.

<http://www.ri.gov/press/view/10937>

### **RHODE ISLAND IS TOPS IN THE NATION FOR H1N1 VACCINATION RATES:**

Congratulations and thanks for contributing to a successful H1N1 vaccination campaign. Data from a national telephone survey conducted by CDC through the months of December, January, and February show that Rhode Island led the nation in vaccination coverage rates for children ages six months through 17 years of age (84.7%). The highest regional rates in the country were found in New England where 56.5% in that age group were vaccinated. The comparable median national H1N1 vaccination coverage rate was 36.8%. KIDSNET is grateful to each and every health care provider for their hard work and dedication not only for vaccinating all those children but for reporting those vaccinations to KIDSNET as well. KIDSNET also appreciates the patience and understanding shown when we fell behind in entering other vaccine data submitted to KIDSNET.

### **Newest VIS's:**

If you have outdated VISs, visit our website to order current versions.
